+(202) 23550113 - 23550114 ✉ info@yourdomain.com | TCN: 725 - 870 - 834

## Who we are:

Since its establishment, CAPITAL IT has always been focused on the development of the integration of technological products and solutions. CAPITAL IT has positioned itself as an end-to-end solution (E2ES) provider in the field of Networking, Security, Collaboration, Internet of Things, and Data Center. We are pleased to provide customers the best fit of advanced technology solutions together with qualified technical support and reliable service for customer's business success

## What we do:

We Study, Design, Deliver and Implement a range of Innovative IT Solutions that enables best-in class services and generate results for our Customers.
We do this by:

- Having a deep understanding of our customer business and strong relationships with our partners
- Aligning our products, services and solutions to meet our customers' needs
- Leveraging our market-leading partnerships to create a unique and differentiated brand experience

## Vision:

To be the capital of IT Solutions that enable business to grow.

## Mission:

To Provide Emerging Technologies, in-depth product knowledge, technical expertise and excellent customer service to address current and new business requirements.

# Solutions:

We provide comprehensive IT solutions to all business sizes, across all industries, as we firmly believe that IT is a requirement for all.

## Network Infrastructure

CAPITAL IT provides complete end-to-end networking solution to major Corporates, knowing the network is the backbone of your business, so our solution follows a full cycle from consultancy, planning, design, implementation, commissioning and training of structured cabling and network infrastructure components.

## Collaboration

CAPITAL IT 's Well-designed Enterprise collaboration systems enables employees in an organization to share information with one another and work together through a combination of software technologies, networking capabilities and collaborative processes.

## Data Center

CAPITAL IT's Datacenter practice strives to create business value for its customers through its broad range of services, including consultation, planning, design, engineering, implementation and maintenance.

## Security

CAPITAL IT continuously build an array of partnerships with technology specialists to enable best-in-class design solutions with cyber security embedded at every level, we provide varieties of solutions from Network & Infrastructure Security , Web & Email Security, Endpoint Security, Data and Messaging Security, Identity & Access Management, Muti-Factor Authentication, VPN & Cloud Security and Next Generation Firewalls.

## Light Current

CAPITAL IT is working as a light current system integrator offering Integrated Systems in the various electronic and electrical light current solutions; including Security, Surveillance, CCTV, Access Control System, and Fire Alarm Detection System.

## Our Values:

At CAPITAL IT, Organizational and individual Growth are not separated from each other's. It can be fueled only by acting with integrity in everything. Building a strong reputation comes from fulfilling commitments, and constantly building our credibility.

Our values are part of our DNA. They guide the way we work with our business partners, within our communities and with each other. Through integrity, accountability, passion, humility, simplicity and a focus on success. At CAPITAL IT we have created a vibrant company culture where ideas can blossom, people can thrive and success can flourish.

- **Client**: We put our customer at the center of what we do.

- **Employee**: We value, challenge and reward our people.

- **Product**: We value product performance as a mean of gaining competitive advantage in the marketplace.

- **Ethical**: We will maintain our Integrity at all times

- **Growth:** We value growth and profitability as a mean to achieve the company's strategic objective.

- **Environment:** We value a positive organizational climate as a strategic differential in achieving business results and employee satisfaction.

- **Dependability** – We standby to our commitments – customers, vendors and employees

- **Partnership –** We will create a win-win situation for all our stakeholders and the community

- **Passion to Excel –** We will go out of the way to Excel in all our deliverables – be it customer, vendor, employee or the Board.

**VIAVI**

Global Leadership in Network Test, Monitoring and Assurance Solutions, as well as Optical Technologies.
https://www.viavisolutions.com/en-us

For over 25 years, we have been the #1 ally of network professionals worldwide. We began by making the world's first handheld network analyzer – the LANMeter® – and have continued as industry pacesetters ever since, first as Fluke Networks Inc. then NETSCOUT Systems, Inc. Now, as an independent organization owned by private investment company StoneCalibre, NetAlly continues to set the standard for portable network testing. We are a company founded by engineers, passionate about innovation, and motivated by one purpose: to create the best test equipment possible, designed with your success in mind. Period.

Your organization relies on you to keep their networks running. And just like you, we are reliable, practical, no-nonsense experts. We are your behind the scenes partner.

**We are NetAlly.**
